

BUSINESS DEVICES THAT ARE A CLASS APART

ThinkPad X Series ultraportables combine enterprise security, manageability, docking and productivity features into a thin and lightweight design.

ThinkPad X13 Gen 3 (Intel)

Smarter technology for all

Lenovo

Redesigned for enhanced performance and productivity, this slim and light Thinkpad packs a wallop of powerful features. With up to 12th gen Intel Core processors and up to 2TB razor-fast SSD storage, it handles compute-intensive tasks and data-heavy files and applications with lightning-quick responsiveness. Comes with a range of onboard and optional ports for easy multi-tasking; with dual thunderbolt 4 ports, transfer large, complex files in a flash and boost everyday productivity.

REASONS TO BUY

Opt for the 13.3” display that best matches your demands of work, whether developing graphics-intensive content or running administrative applications. It has an optional touch display for ease of computing while traveling and a full-day battery that gives mobile professionals the freedom to work an entire day outdoors, worry-free.

Security features like the optional fingerprint reader on the power button and the optional IR camera ensure full-proof user verification. TPM 2.0 protects data from being misused while working on the system or during its transit.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

ThinkPad X13 Gen 3 (Intel)
